Customer success: Running Wild

Ms. Nicole Brask, Operations, and her team at Running Wild, in Pensacola, Florida, saw the potential of NCR Customer Connect to drive revenues of its merchandise and services.

"We have 13,000 people in our NCR Counterpoint database, so it's important to only send our customers information that's relevant to them," says Ms. Brask. One campaign includes a set-and-forget email that is sent to customers who buy running shoes, reminding them to replace these items at the six-month mark when they've worn out. "The set-and-forget campaign is invaluable," says Ms. Brask. "You touch it once and then review it once or twice a year for relevance."
